## Summary

“Shirushi Coin” (SISC) is a token offered by SHIRUSHI Inc, a Japanese company that designs and develops semiconductors, web3 and IoT devices. Shirushi Coin (SISC) is the token offered by SHIRUSHI Inc (Japanese Web3 and IoT developer). This token can be used for many various products and services offered by Shirushi Inc. Since it is implemented on the Binance Smart Chain (BSC) and the Ethereum Chain (ERC), there is no need to worry about the reliability of the network.

With this token, you can purchase “Web3 Maker” and mining machines and PC parts sold by SHIRUSHI Inc at a 10% discount.

Shirushi Coin is a revolutionary token that allows you to experience Web3 in real life. In the Shirushi Market (Internet mall where you can buy products with crypto asset for payments), You can purchase at a discount price. And also you can use Shirushi Coin in your daily life at “Shirushi Life”. This service can offer you to exchange Shirushi Coin to digital gift cards or digital coupons.

In addition, "Shirushi Coins" will be tokens that can be used for payment in the NFT Marketplace, which is developed and operated by SHIRUSHI Inc.

SHIRUSHI Inc is going to continue developing products that will amaze the world. Each time we do so, the value of these tokens will increase.

## Online Shops

SHIRUSHI Inc. sells its products on 「<https://web3maker.io/>」 (the "Site"), an online sales and management site for the world's smallest and lightest mining machines.

This site is linked to Metamask, the world's most popular self-custody wallet, and is a Dapps (decentralized application) web3 site that identifies customers by their wallet address.

Once this site is linked to customer's Meta Mask, it can Identify customers by their wallet address. This site accepts payment by bank transfer, credit card, and crypto assets. If you choose to pay by crypto assets (ETH, BNB, SISC), you can purchase products without using a bank or other financial institution.

Furthermore, if you choose to pay with Shirushi Coins (SISC), you can purchase products at a 10% discount.

Purchased products can be operated in the following two ways.

- (1) Operation by the self customer
- (2) Operation at the data center managed by the SHIRUSHI Inc.

Shirushi Coins can be used not only for purchasing products but also for paying maintenance fees.

In the future, we will expand the products that can be purchased on this site. Our own products under development, graphics cards, PC parts, etc. will be available for purchase on our own e-commerce site.

## Shirushi Market

SHIRUSHI.Inc is open an e-commerce mall for crypto asset payments to improve the utility of Shirushi coins. It's name is "Shirushi Market".

Shirushi Market, customers can shop not only with major crypto assets such as BTC, ETH, and BNB, but also with Shirushi Coins (SISC) issued by our company.

When customers make purchases with ShirushiCoin, they can buy products at extremely low prices compared to general e-commerce sites.

Customers can use Shirushi Coins to make purchases because they need to obtain Shirushi Coins in one of the following two ways.

- (1) Shirushi Coins buy on the market.
- (2) Shirushi Coins Receive by purchasing products from SHIRUSHI Inc.

let's thinking, Regardless of whether the customer obtains the Shirushi Coins by either method (1) or (2), the Company can earn sales and gross profit from the sale of the coins and products, so there is no need to earn a large profit from the products alone.

As a result, customers who use Shirushi Coins to purchase products on the Shirushi Market are able to purchase high quality products at significantly lower prices than the market price.

## Shirushi LIFE

SHIRUSHI.Inc is a manufacturing company mainly engaged in research and development of blockchain-related products. We create out-of-the-box products by putting software full of originality on hardware.

"Shirushi LIFE" devised by SHIRUSHI.Inc Ltd. is a service that gives form to our technical capabilities and ideas.

We have launched Web3Maker, the world's smallest and lightest product that combines token approval capabilities.

Tokens can be used to store value or exchange goods, but opportunities to use them in real life are currently limited.

If by purchasing our "Web3Maker" you could receive a digital gift of at least 5 hamburgers each month, you would be able to live off of owning and operating our product.

"Shirushi LIFE" is a revolutionary service that allows users to directly receive various goods and services needed in their daily lives.

If the price of Shirushi Coins increases, you will be able to eat 8 hamburgers this month and 10 hamburgers next month.

"Shirushi Market" and "Shirushi LIFE", you can get all the goods and services you need in your daily life if you have Shirushi Coins.

# NFT Marketplace

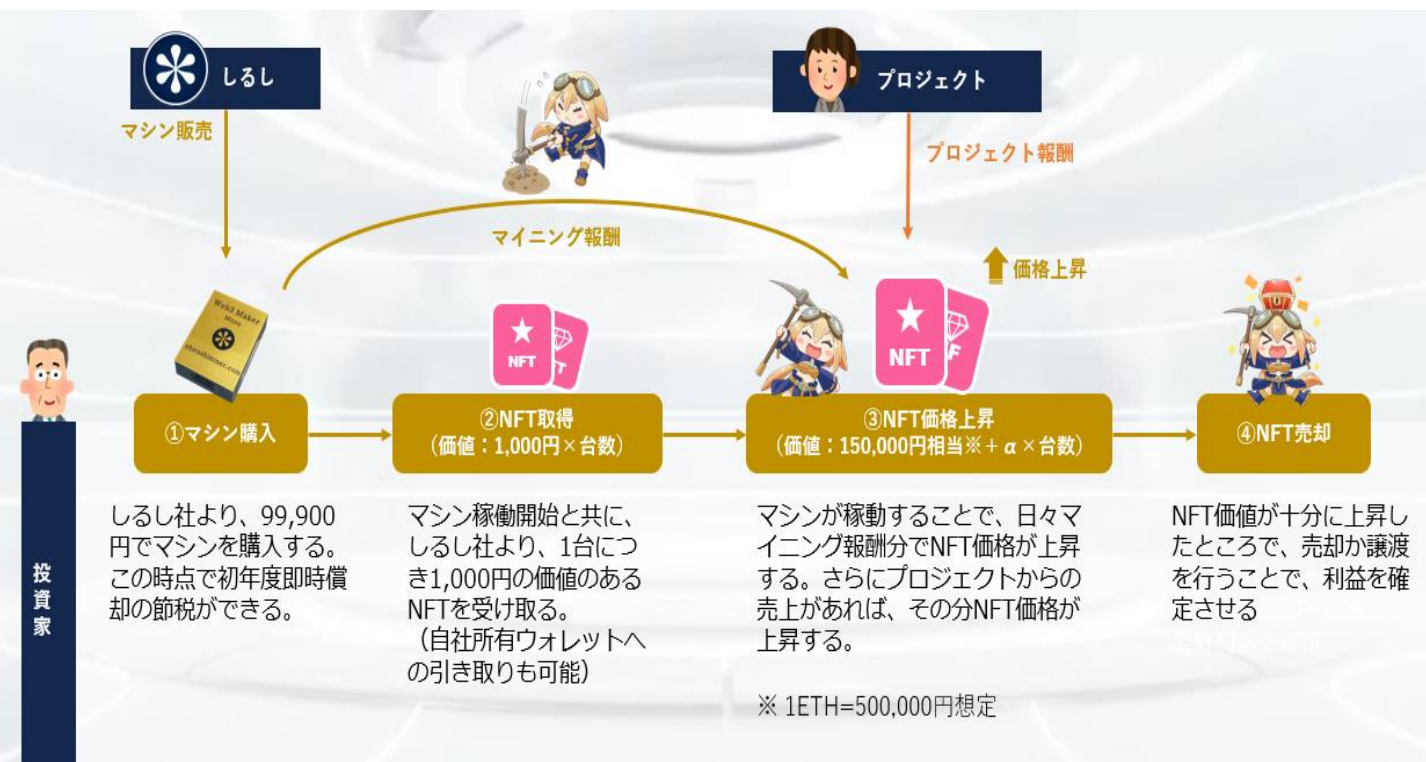

Shirushi.inc has not only hardware technology, but also software technology, including blockchain-related technology.

We are pleased to announce the release of the NFT Marketplace, which will allow NFT to be accessed and traded not only in Japan but also around the world. It will be a seamless cross-border trading platform where both legal tender and crypto assets can be purchased. The unique feature of our NFT marketplace is that it is equipped with a crowdfunding function.

A new type of fundraising scheme [IMO] (Initial Machine Offering), which combines the three technologies and mechanisms of mining, NFT and crowdfunding, will be implemented. [IMO] grants NFT as an extra when a mining machine is purchased. Mining machines can be expensed. The rewards generated by the mining machine are then added to the price of the NFTs that came as an extra when the machine was purchased, thereby increasing the price of the NFTs.

This is a hybrid form of crowdfunding where you can earn income from the Mining Machine and at the same time raise funds for the projects you want to support through crowdfunding using the Mining Machine.

Shirushi.inc has the only hardware manufacturing technology and has developed an ultra-compact mining machine called the Web3Maker.

# Technical Specification

---

## Technical Specification

Token Logo : <https://www.coin.shirushi.tokyo/shirushicoin-icon/>

Token Name : Shirushi Coin

Token symbol : SISC

Total number of tokens : 100,000,000 SISC

Additional Issuance Amount 100,000,000 SISC  
(Quantity to be issued by mining)

Valid decimal portion : 8 decimal places

Practicality : 10% discount at the online store operated by Shirushi Inc.  
Use at Shirushi Market, use at Shirushi LIFE, use as in-game currency  
operated by Shirushi Co.

Chain Binance Smart Chain

- He was deeply involved in the company from its inception and established its business foundation in Japan.

#### Naoki Okura (President, COO and CTO)

- Engineer in crypto assets and hardware
- Advance your career as an engineer in the technology and financial industries
- Start-up member of a Japanese crypto asset exchange, involved in licensing activities.
- With its quirky ideas and forward-thinking spirit, the company continues to develop innovative products and lead the development of future technologies.

# Token Economy

---

# Token Economy

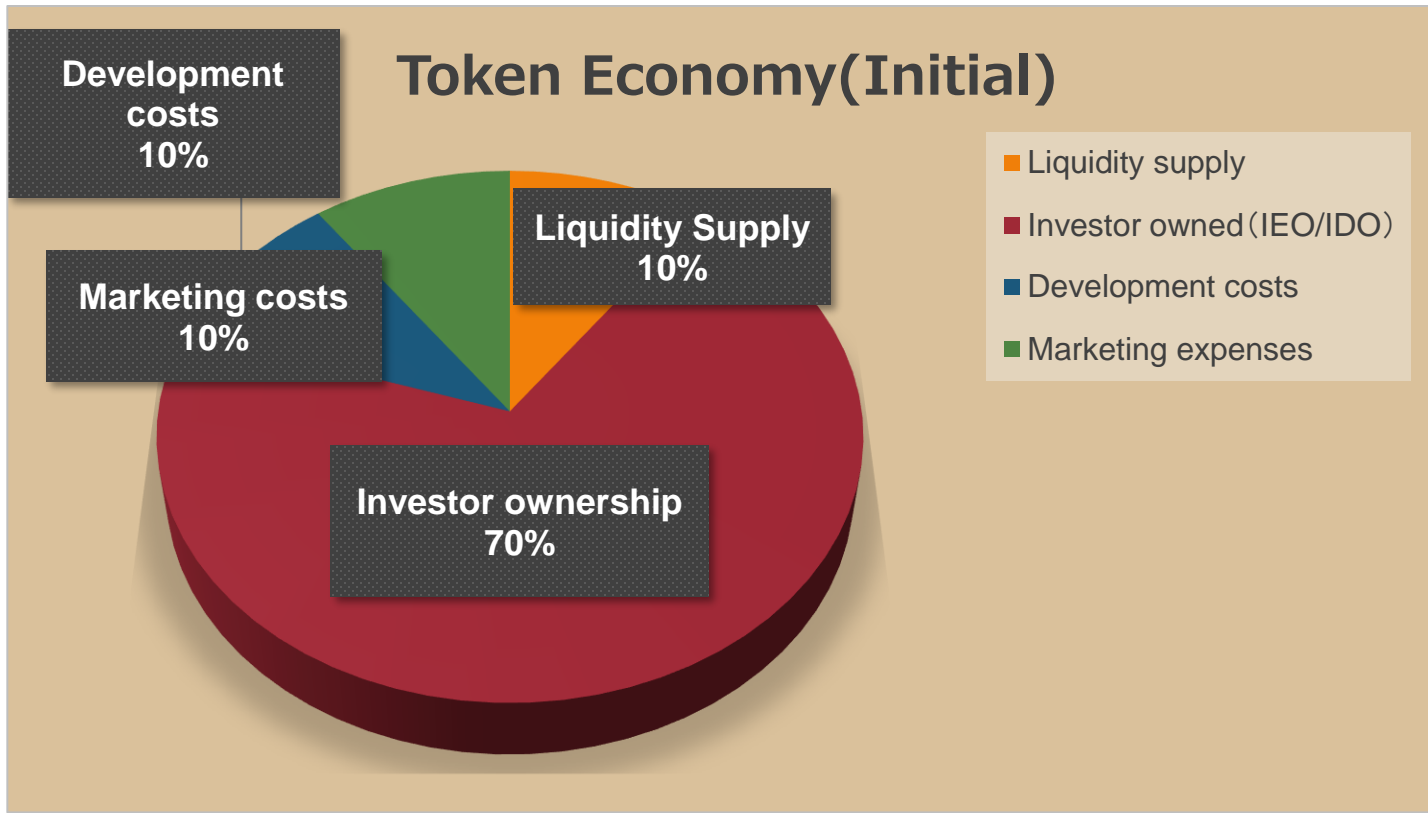

The maximum supply of Shirushi coins (1) ~ (4) is 200 million (100 million initial issue and 100 million additional issue). The initial issuance will be used to provide liquidity, investor ownership, marketing costs, and development costs. The additional issuance will be issued and supplied by mining

## 【Initial Offering】

- (1) Liquidity supply ... 10%
- (2) Investor ownership ... 70%
- (3) Marketing costs ... 10%
- (4) Development costs ... 10%

## 【Additional Offering】

- (1) Supply by mining... 100%

### 【 Initial Offering 】

(1) Liquidity Supply - 10%.

This is the percentage of tokens used by investors for market making and liquidity pooling to ensure stable trading on the exchange.

(2) Investor ownership ... 70% ...

Percentage of coins offered to initial investors.

Tokens purchased on the exchange are rarely sold in the first place, as they are transferred to SHIRUSHI Inc for the purchase of goods and used for settlement. In addition, when sales of our mining-related products occur, SHIRUSHI Inc. purchases a certain amount of Shirushi coins on the market, which is a major buying factor in the rise of Shirushi coins. As a result, investors are more likely to use the coins than to own them in the hope that they will increase in value.

(3) Marketing costs . .10%.

To cover audit and legal fees incurred in connection with the release of this coin, listing costs, and public relations expenses to raise awareness of Shirushi Coin.

## Token Economy

### (4) Development costs ... 10% ...

This percentage of the Coins will be used to pay for the development of cutting-edge technologies such as software and hardware. The value of the Coins will increase dramatically with the development and success of the following technologies.

#### \* Software

SHIRUSHI Inc. working to reduce the size and power consumption of its products and is developing a product that will allow IoT devices to be equipped with a token generation function and that will work on human reward circuits by receiving tokens and is developing software to be used in this product.

#### \* Hardware technology

We are developing original products with a token generation function that do not exist anywhere else in the world. We are developing thermometers and hygrometers with a token generation function, drones, and IoT devices with a voice reading function. We will combine blockchain technology and IoT to develop new products that have no name in the world. We are also embarking on research and development of quantum computers.

#### \* Materials Technology

Our materials are used in the research and development of semiconductor materials that improve computer performance and materials suitable for cooling and power saving.

#### \* Energy Technology

This technology will be used for the development of green energy generators and devices focusing on power saving.

## 【Additional Offering】

(1) Supply by mining - 100%.

SHIRUSHI Inc. launched the world's smallest and lightest mining machine, Shirushi Miner, in November 2022.

The product has been approving and processing (mining) new token issuances since November 1, 2022, with 20,000 Shirushi Coins paid daily in the first year as compensation for processing on **Web3Maker**.

The supply will increase as additional Shirushi coins are issued, but Shirushi miners have a mechanism to absorb the increase in supply caused by additional issuances, since the more **Web3Maker** are sold, the more Shirushi coins are bought.

In the future, by diversifying and collaborating on products for sale, it will become easier to purchase tokens than to sell machines alone, allowing users to receive tokens without being aware that they are purchasing a Mining Machine.

# Road Map

---

Year 2022

- We opened an online store where you can purchase with Shirushi Coin.
- Developed and sold the World's smallest and lightest mining machine "**Shirushi Miner**".
- Development of IoT devices with token generation function is launched.

- We launched sales of "**Web3 Maker**" in March 2023."①"  
which converts any device that was not connected to the blockchain and the Internet to the IoT.
- "**Web3Maker2.0**" further downsized and lightened from the previous model. The company has developed "②" and started sales in June 2023.
- We will develop and market a new "Shirushi Earn" series of products with token generation capabilities.
- The e-commerce mall "**Shirushi Market**", which offers crypto asset settlement, begins operations.

① Web 3 Maker

② Web3Maker 2.0

- We will release [**NFT Marketplace**], which can be accessed and traded from all over the world.
- OEM provision of next-generation IoT device "**WEB3 Maker**" to other issuer tokens begins.
- We will start "**Shirushi LIFE**", where you can directly receive various goods and services you need in your daily life.
- Develop and release new coins dedicated to mining and quantum computing.

Thank you very much for reading this report.

We are looking forward to your continued support of Shirushi Coin (SISC) .

**THANK  
YOU**
